

2018 Drug List Negative Changes Updated 10/25/2018

If you are taking a drug that is removed from the formulary (also known as the Drug List), we will tell you. We will also tell you if we add any restrictions on a drug. We will tell you at least 60 days before we make these changes. This gives you time to talk to your doctor about what to do next.

If the Food and Drug Administration (FDA) says a drug you are taking is not safe, we will take it off the formulary right away. We will also send you a letter telling you that.

The table below shows changes made to our 2018 formulary. Your cost share depends on your coverage stage. Your formulary tells you the tier that applies to each covered drug.
